

# FINOT 40 'Rêve de Seychelles'

€34.000,-

INFORMATION BROCHURE

# Welcome!

We are Bart, Jenneke and Suze: the proud owners of sailing yacht Tutti. And.. we look for a new owner.

Tutti is a strong and comfortable **cruisers yacht**. Situated on a **perfect spot** to start your cruisers life: outside the hurricane zone, close to the San Blas islands, the choice to explore the Caribbean sea or enter the Pacific ocean. This Finot is a trustable and cosy ship: it crossed the Atlantic already three times and is **ready to inhabit and make crossings** directly. The **spacious living room** counts 11 windows which provides a lot of view and daylight. The four roofwindows in the rest of the boat give a cool breeze all the space to blow through. We bought this boat four years ago as a **no-nonsense-boat** and we kept it like this. The taps, bilgepumps and anchorwinch are being operated by foot and hand. Therefore you are not depending on electricity so much and if any problem occurs it is almost always easy to repair. However, there is a electric coolbox on board for your beer and cola ☺.

The boat is **isolated** (4,5 cm) so also suitable for cruising in cold areas.

The last year we sailed with a **baby on board** so we did some adjustments for her. These are nevertheless easy to remove. We like to live on land in the Netherlands again so we decide to sell our yacht for this keen price, **grab your chance!**
